Summary

Highly motivated and results-oriented Symfony PHP Developer with 5+ years of experience in building and maintaining complex web applications. Proven expertise in leveraging Symfony framework and React.js to create scalable, high-performance web solutions. Passionate about delivering clean, efficient code while collaborating effectively within cross-functional teams to achieve project goals.

Skills

Programming Languages: PHP, JavaScript, HTML, CSS, SQL, React.js

Frameworks & Libraries: Symfony, React.js, jQuery, Bootstrap, MySQL, Git

DevOps: Docker, AWS, CI/CD, Linux

Other: Agile methodologies, Test-driven development (TDD), Unit testing, Code reviews, REST APIs, API integration

Experience

Software Engineer | **[Company Name]** | **[City, State]** | **[Month, Year] - [Month, Year]**

- * Developed and maintained robust web applications using **Symfony** framework and **React.js**, collaborating with UI/UX designers to implement modern and responsive web designs.

- * Implemented **REST APIs** and optimized applications for **maximum speed and scalability**, ensuring seamless integration with backend systems.

- * Leveraged **Docker** for containerization and **AWS** services to deploy and manage applications efficiently.

- * Contributed to **code reviews** and ensured code quality and adherence to coding standards, promoting best practices within the development team.

- * Successfully launched **[Project Name]**, a highly scalable web application using **Symfony** and **React.js**, achieving a [**quantifiable result**] in [**time frame**].

* Successfully identified and resolved critical performance bottlenecks in **[**Project Name**]**, resulting in a **[**quantifiable improvement**]** in **[**time frame**]**.

[[Previous Software Engineer Position]** | **[Previous Company Name]** | **[City, State]** | **[Month, Year] - [Month, Year]**]**

* Developed a ****React.js**** based web application for **[**Project Name**]**, improving **[**specific metric**]** by **[**quantifiable amount**]**.

* Implemented a ****CI/CD pipeline**** for **[**Project Name**]** using ****Jenkins****, reducing deployment time by **[**percentage**]**.

* Developed and integrated ****REST APIs**** for **[**Project Name**]**, enabling efficient data exchange between backend systems and the frontend application.

* Collaborated with cross-functional teams to achieve project milestones, demonstrating strong communication and teamwork skills.

****Education****

[[Degree Name]** | **[University Name]** | **[City, State]** | **[Month, Year]**]**

****Projects****

* **[**[Project Name]**]**: Developed a **[**Project description and relevant technologies**]**

* **[**[Accomplishments and Quantifiable Results]**]**

* **[**[Project Name]**]**: **[**Project description and relevant technologies**]**

* **[**[Accomplishments and Quantifiable Results]**]**
