

I can't directly edit the PDF resume you provided. However, I can guide you on how to tailor your resume to the job description, focusing on the "Proficient in AWS, Azure, GCP" requirement.

**\*\*Here's a breakdown of what to do:\*\***

### 1. **\*\*Identify Relevant Skills:\*\***

\* **\*\*Review the job description carefully.\*\*** Look for specific keywords and phrases related to AWS, Azure, and GCP. Do they mention particular services, deployment models, or specific use cases?

\* **\*\*List your cloud computing skills.\*\*** Make sure to highlight:

\* **\*\*Specific cloud platforms:\*\*** AWS, Azure, GCP (and any others you're proficient in).

\* **\*\*Services and technologies:\*\*** EC2, S3, Lambda, Azure Functions, Kubernetes, BigQuery, etc.

\* **\*\*Deployment models:\*\*** Infrastructure as Code (IaC), Serverless, Containerization.

\* **\*\*Cloud-related certifications:\*\*** AWS Certified Developer, Azure Solutions Architect, Google Cloud Professional Cloud Architect, etc.

### 2. **\*\*Quantify Your Experience:\*\***

\* **\*\*Use numbers and metrics to demonstrate your cloud expertise.\*\*** For example:

\* "Developed and deployed a serverless application on AWS Lambda, resulting in a 30% reduction in operational costs."

\* "Migrated a legacy application to Azure, improving performance by 20%."

\* "Designed and implemented a data pipeline on Google Cloud Platform's BigQuery, automating data processing and reducing manual efforts by 50%."

### 3. **\*\*Tailor Your Resume:\*\***

\* **\*\*Rewrite your resume with the focus on cloud computing.\*\*** The job description should be your guide.

\* **\*\*Create a separate "Cloud Skills" section:\*\*** This helps recruiters quickly identify your proficiency.

\* **\*\*Use keywords from the job description:\*\*** Incorporate them naturally throughout your resume.

**\*\*Example "Cloud Skills" Section:\*\***

**\*\*Cloud Skills\*\***

**\* \*\*Proficient in:\*\* AWS, Azure, GCP**

**\* \*\*Experience with:\*\* EC2, S3, Lambda, Azure Functions, Kubernetes, BigQuery, Terraform, CloudFormation, Ansible**

**\* \*\*Deployment Models:\*\* Infrastructure as Code (IaC), Serverless, Containerization**

**\* \*\*Certifications:\*\* AWS Certified Developer - Associate (or other relevant certifications)**

**\*\*Remember:\*\***

**\* \*\*Keep your resume concise and easy to read.\*\***

**\* \*\*Proofread carefully for any errors.\*\***

**\* \*\*Use strong action verbs to highlight your achievements.\*\***

By following these steps, you can create a resume that effectively demonstrates your proficiency in AWS, Azure, and GCP, increasing your chances of landing an interview.
