Summary

Highly motivated and detail-oriented web developer with a strong foundation in CSS and Java, seeking a challenging role where I can contribute to building robust and user-friendly web applications. Proven ability to implement responsive and visually appealing designs using CSS, as well as leverage Java to enhance functionality and deliver dynamic web experiences. Eager to learn new technologies and collaborate effectively within a team environment.

Skills

* **CSS:** Proficient in CSS, including responsive design principles, CSS frameworks (Bootstrap, Tailwind CSS), and advanced styling techniques.

* **Java:** Experience in Java, including object-oriented programming concepts, Java frameworks (Spring, Struts), and creating dynamic web content.

* **HTML:** Strong understanding of HTML5, including semantic markup and accessibility best practices.

* **JavaScript:** Familiarity with JavaScript and its core concepts.

* **Version Control:** Proficient in Git for collaborative development and managing code changes.

* **Problem Solving:** Strong analytical and problem-solving skills with the ability to translate business requirements into technical solutions.

* **Teamwork:** Excellent communication and collaboration skills with the ability to work effectively within a team environment.
